WHAT OTHERS HAVE SAID:

Dr. Dorothy's intrinsic love of people, her spiritual approach to life, and her outrageous sense of humor combine to create an ability to inspire and motivate others to live their life in such a way that they know anything is possible. She has the ability to show that when your heart and soul are focused and you choose to live this life, not survive it, miracles happen every day. That is a message we all need to hear. She was an inspiration and a gift to all. ~ Denise Landry

Stand your distance if you don't want to grow - Dorothy is a powerhouse with a special gift to see right through you, to get to the heart of the matter. I am blessed to have studied with her. I am better off for knowing her and you will be too. The world needs leaders like Dorothy around. L.F

This work has helped me to awaken to the truth of who I am, to honor each and every step of my journey, and to discover the power I have to make my life everything I want it to be. JoAnn Lopes

She has designed and facilitated seminars throughout the country over 30 years. She has produced Stress Reduction meditations which are all streaming . In her business coaching, and personal development seminars she facilitates how to communicate with excellence.

WHAT OTHERS HAVE SAID:

Gail has made a positive lasting change in my life and of countless other women... I was going through a tough divorce and took her two-day women's seminar. Through her love she helped me reframe my thinking and gave the tools and confidence to meet the challenges ahead and am eternally grateful to her. Gail is a gifted facilitator there is nobody like her who in a one- or two-day retreat can change your life for the better. Jane Schrieber

I have taken two completely transformative seminars with Gail. The first One day event was so powerful it resonated with me for months afterward. I was going through cancer, and I was afraid of the future and decisions I was facing. Gail gave me the tools to empower myself, to discover my strength and manifest for my future. I returned to be in a two-day retreat and healed even further and was able to shift my life and learned how to heal some deep-seated hurts in my personal life and found ways to move forward in areas I highly recommend Gail. The experience is a WOW!
